

Beginners or advanced?

Workshop 1

Online Filing and PatXML

Select the *Beginners* workshop if you

- have no experience of **epoline**[®] Online Filing
- file patent applications on paper or by fax
- and would like to find out about the basics of **epoline**[®] Online Filing

Choose the *Advanced* workshop if you

- have already used **epoline**[®] Online Filing software and are reasonably familiar with it
- would like more in-depth knowledge, including tips and tricks and more advanced features
- are familiar with XML and/or would like to know more about its use in Online Filing

Workshop 2

Online European Patent, WebRegPro, WebRegMT and Online File Inspection

Sign up for the *Beginners* workshop if you

- have little or no experience of these products and services
- would like a general overview of what they are and how they can help
- are interested in how Online File Inspection and the Register products and services are structured (eg which product delivers which piece of information and how they interact)

Enrol in the *Advanced* workshop if you

- have used the Register, WebRegPro and Online File Inspection before
- are interested in finding out more (including features that are not necessarily immediately obvious or intuitive, eg Register truncation)
- would like information about new features and advantages
- would like to understand the differences between the products and find out which product or service is most suitable for which customer/target group
